

**AAS Annual Meeting 2024**  
**Abstract submission open!!**

Dear colleagues,

We would like to cordially invite you to the 31<sup>st</sup> Annual Meeting of the Austrian Atherosclerosis Society (AAS) to be held in **St. Gilgen, May 2-4, 2024**.

This meeting will offer the opportunity to all participants to present and discuss their research and network with leading international researchers in a pleasant atmosphere. We are pleased to announce that Patrick Rensen (Leiden, The Netherlands), Wolfgang König (Munich, Germany) and Stephanie Dimmeler (Frankfurt, Germany) have agreed to present their latest research results. In addition, we can expect a historical lecture by Gerd Utermann on the research on the apolipoprotein E polymorphism and the apo(a) size polymorphism.

We therefore invite all interested research groups to submit their abstracts (see template) on recent basic and clinical science contributions in English to [AAS24abstracts@media.co.at](mailto:AAS24abstracts@media.co.at) by **February 10, 2024**, at the latest.

The program committee presented by Dimitris Tsiantoulas, Marion Mussbacher, and Johanna Schachtl-Rieß will set-up the program and decide on the acceptance of the submitted contributions for oral or poster presentation during the meeting.

We are very much looking forward to meeting you in St. Gilgen!

With kind regards on behalf of the AAS Executive Committee,
